

# Field Safety Layout - Football

## SETUP

Unless attended container must be locked with coded padlock.

Field **must** be roped from corner of tennis court to lower goal post using long orange rope and large metal stakes. Also must include warning signs at sensible intervals.

Second rope must be used to roped between opposite corner of tennis court and edge of field. A warning sign must be used on the middle stake.

Please use **hammer** to bang in stakes.

Shooting line (thicker rope) to run across both white spots and up to bottom goal post, white spots are located 10 yards to left of spot 1 and 16 yards to right of spot 12).

Please use **rubber mallet** to bang in pink painted metal pegs.

Place one peg between each spot.

Note: Place pegs in front of shooting line with hook facing tree line and between, not on, the spots.

Unlock toilet and return key to container.

## END OF SHOOTING

Ensure toilet locked and key returned to container

Always lock all gates even if unidentified vehicles are still onsite and or we did not unlock
